OBJECTIVE

Recent B.Tech graduate seeking an entry-level opportunity to apply my knowledge of **Java, SQL, Manual Testing, Cloud, and DevOps**. Eager to learn, grow, and contribute to a professional software development environment.

EDUCATION

B.Tech in Computer Science and Engineering , Sree Rama Engineering College, Tirupati CGPA: 8.0/10	2026
Intermediate (MPC) , Sri Chaitanya Junior College, Tirupati CGPA: 9.5/10	2022
Secondary School Certificate (SSC) , Sri Venkateswara English Medium High School, Tirupati CGPA: 9.8/10	2020

SKILLS

Programming Languages	Core Java, JavaScript
Databases	Oracle SQL, MySQL
Testing	Software Testing, Manual Testing, SDLC, STLC, Unit Testing, Functional Testing, Regression Testing
Cloud	AWS, Azure, Cloud Computing Fundamentals
Devops	Git, GitHub, CI/CD, Jenkins
Operation Systems	Windows, Linux Fundamentals
Web Technologies	HTML5, CSS3

PROJECTS

Generative AI for Advanced Threat Identification in Cybersecurity

With the increase in advanced cyber attacks, traditional security systems cannot handle them effectively. Implemented a Generative AI-based threat intelligence and decision support system to improve response time in Security Operations Centers (SOC). Enabled early detection of malicious activities and vulnerabilities. Achieved faster threat detection, improved accuracy and security response.

INTERNSHIP EXPERIENCE

AI - Data Quality Analyst Rooman Technologies Pvt. Ltd. - Performed data cleaning, validation, and preprocessing to improve data accuracy for AI models. - Demonstrated strong dedication and performance while working on data quality analysis tasks.	May 19, 2025 – July 14, 2025
Python Flask and Microservices Society for Learning Technologies - Developed RESTful APIs using Python Flask following a microservices architecture. - Tested API endpoints using Postman and gained hands-on experience in backend application development.	December 10, 2025 – March 15, 2026

TRAINING

Java Full Stack Development & Manual Testing JSpiders, Bengaluru - Learning Core Java, SQL, JavaScript, HTML, CSS. - Practicing programming and problem-solving through assignments and projects. - Building a strong foundation in software development and database concepts.	May 2026 – Present
--	--------------------

CERTIFICATIONS

- NPTEL – Digital Image Processing.
- Java Full Stack Workshop – Think Champ Pvt Ltd.
- Technical Quiz Participation.
